

R SHINY PROJECT

Conception of a web app to facilitate management of CNU's promotion system.

YANNIS, GARANCE, KHOI & RASSEM

TUTOR : JEAN-FRANÇOIS COEURJOLLY

CONTENTS

- 1 PRESENTATION OF THE PROJECT**
- 2 GOALS & IMPACTS**
- 3 OUR ORGANIZATION**
- 4 PRIORITIES**
- 5 WHERE ARE WE CURRENTLY**
- 6 FUTURE PLAN**

PRESENTATION OF THE PROJECT

The CNU : Conseil national des universités

- Each section is divided in two colleges : one for lecturers and one for university professors
- National instance that manages :
 - qualification
 - recruitment
 - carrers

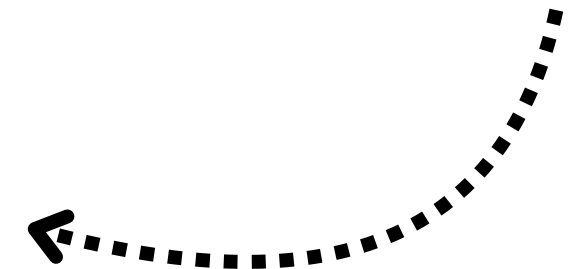

One of their mission : the promotion

- Application submission from lecturers and professors
- Review by two reviewers (rapporteurs)
 - Notice : reserved, favourable or very favourable.
 - Modalities : 7 criteria.

Currently, everyone is working on the same Excel sheet...

It's not ideal :

- Not very practical.
- Risk of leak of sensitive data.
- Risk of typing errors. (ex : wrong line)

We are going to build a tool to replace it!

GOALS, IMPACTS & RESTRICTIONS

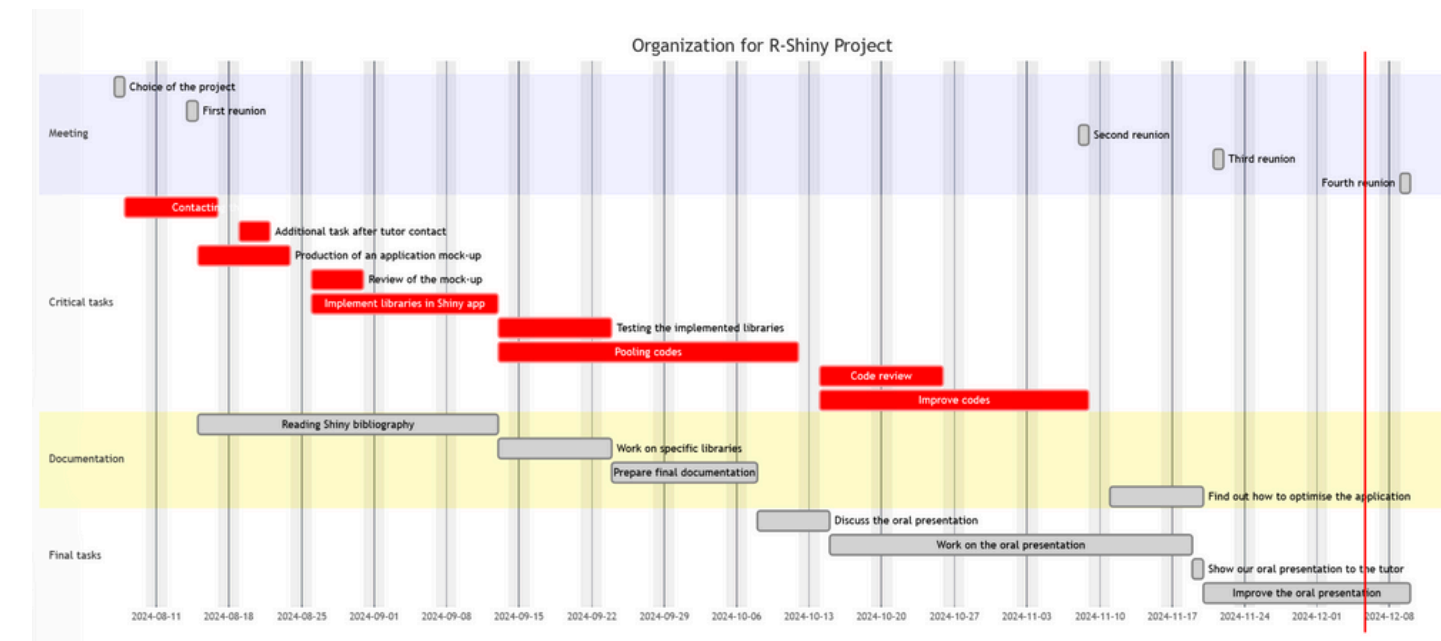

- **Build an application**
→ No more Excel sheet, simplified user experience.
- **Separate the review of each application**
→ Prevent the problem of writing on the wrong line.
- **Restrain the access to the app**
→ Prevent data leakage.
- **Build a tool to produce statistics on the review**
→ Help to detect biases (geographical, gendered,...)

Restrictions :

- Time
- Anonymized file
- R-Shiny

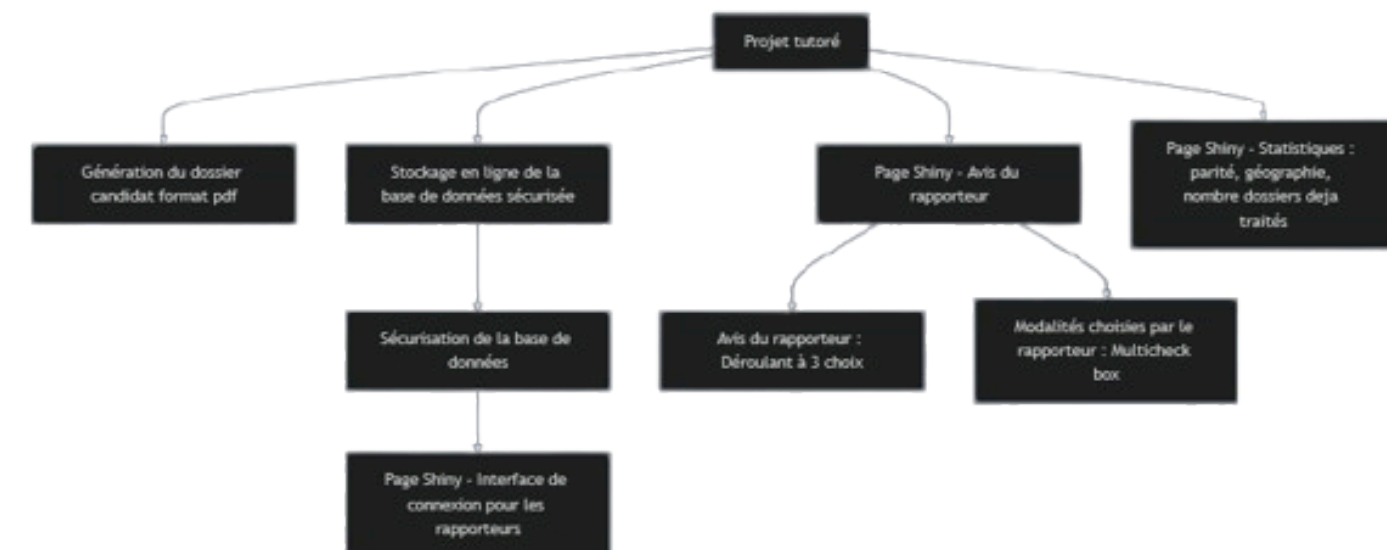

OUR ORGANIZATION

Plannification Gantt diagram

Work distribution

Separation of the tasks that can be done independently.

Github

One main branch and 3 forks.

PRIORITIES

Essential features

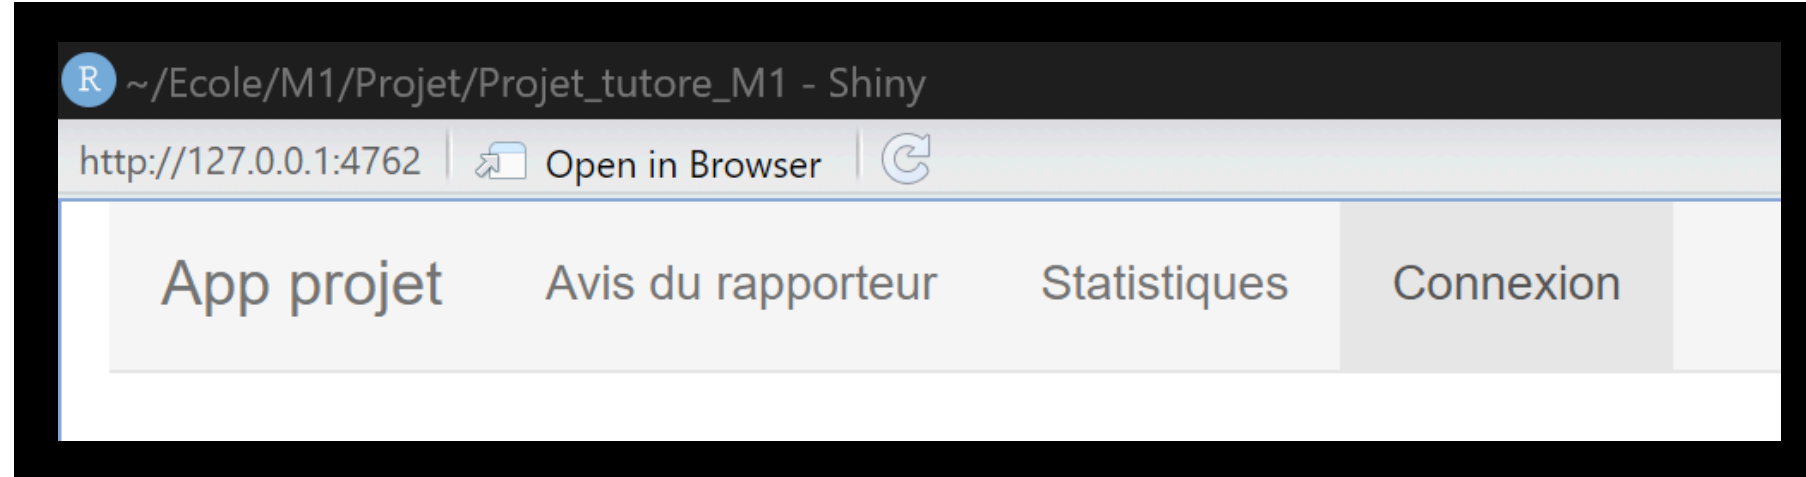

- Build a mock-up for the application.
- Reading and writing data through the application.
- Securization of the access to the platform.

Important features

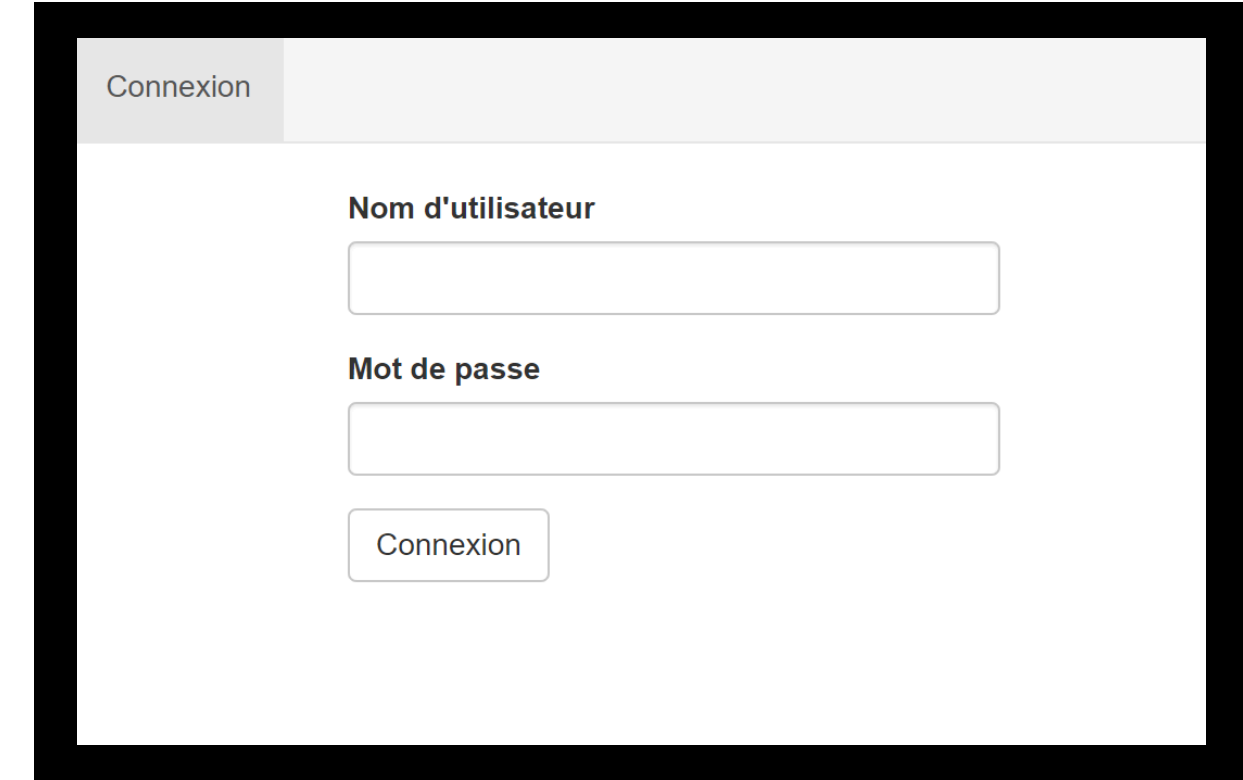

- Statistics
- Aesthetics

WHERE WE ARE CURRENTLY

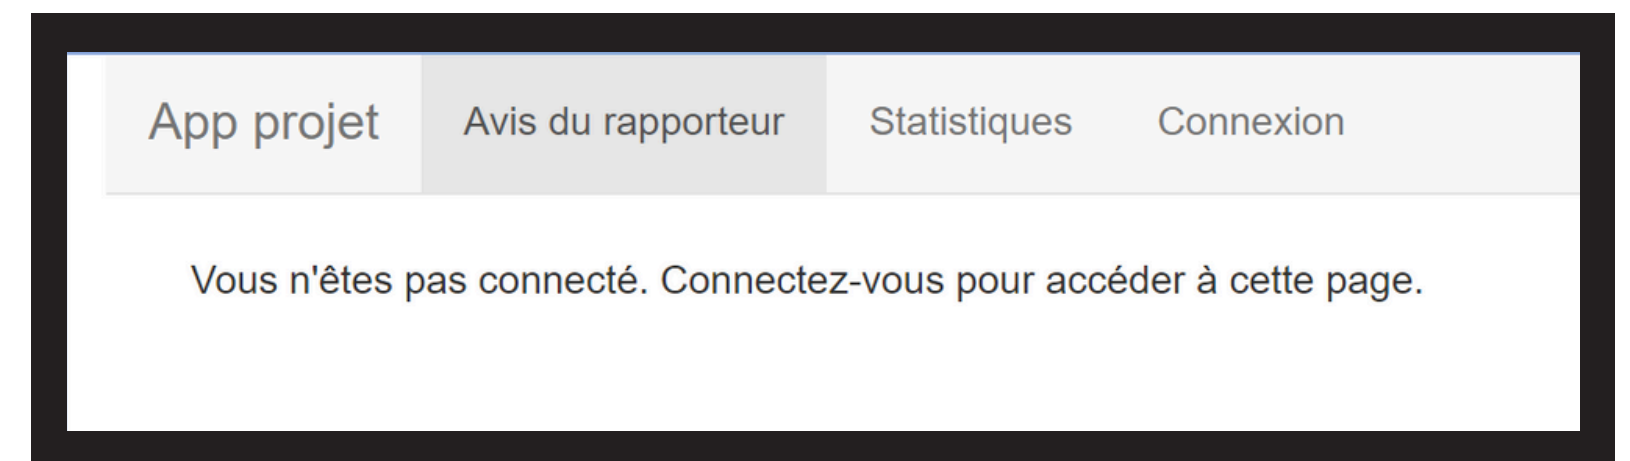

Mock-up of the application

Connexion page

A screenshot of the "Connexion" page mock-up. The page has a header with the word "Connexion". Below the header, there are two input fields: "Nom d'utilisateur" and "Mot de passe". Below the "Mot de passe" field, there is a button labeled "Connexion".

Avis

Modalités d'attribution

☐ M1 (Ens)

☐ M2 (Rech)

☐ M3 (OIP)

☐ M4 (Diff)

☐ M5 (Eur)

☐ M6 (Coop)

☐ M7 (Invest)

Déposer un pré-rapport (PDF)

Télécharger le dossier du/de la candidat.e (PDF)

PDF ou texte comprenant les informations de la candidature

WHERE WE ARE CURRENTLY

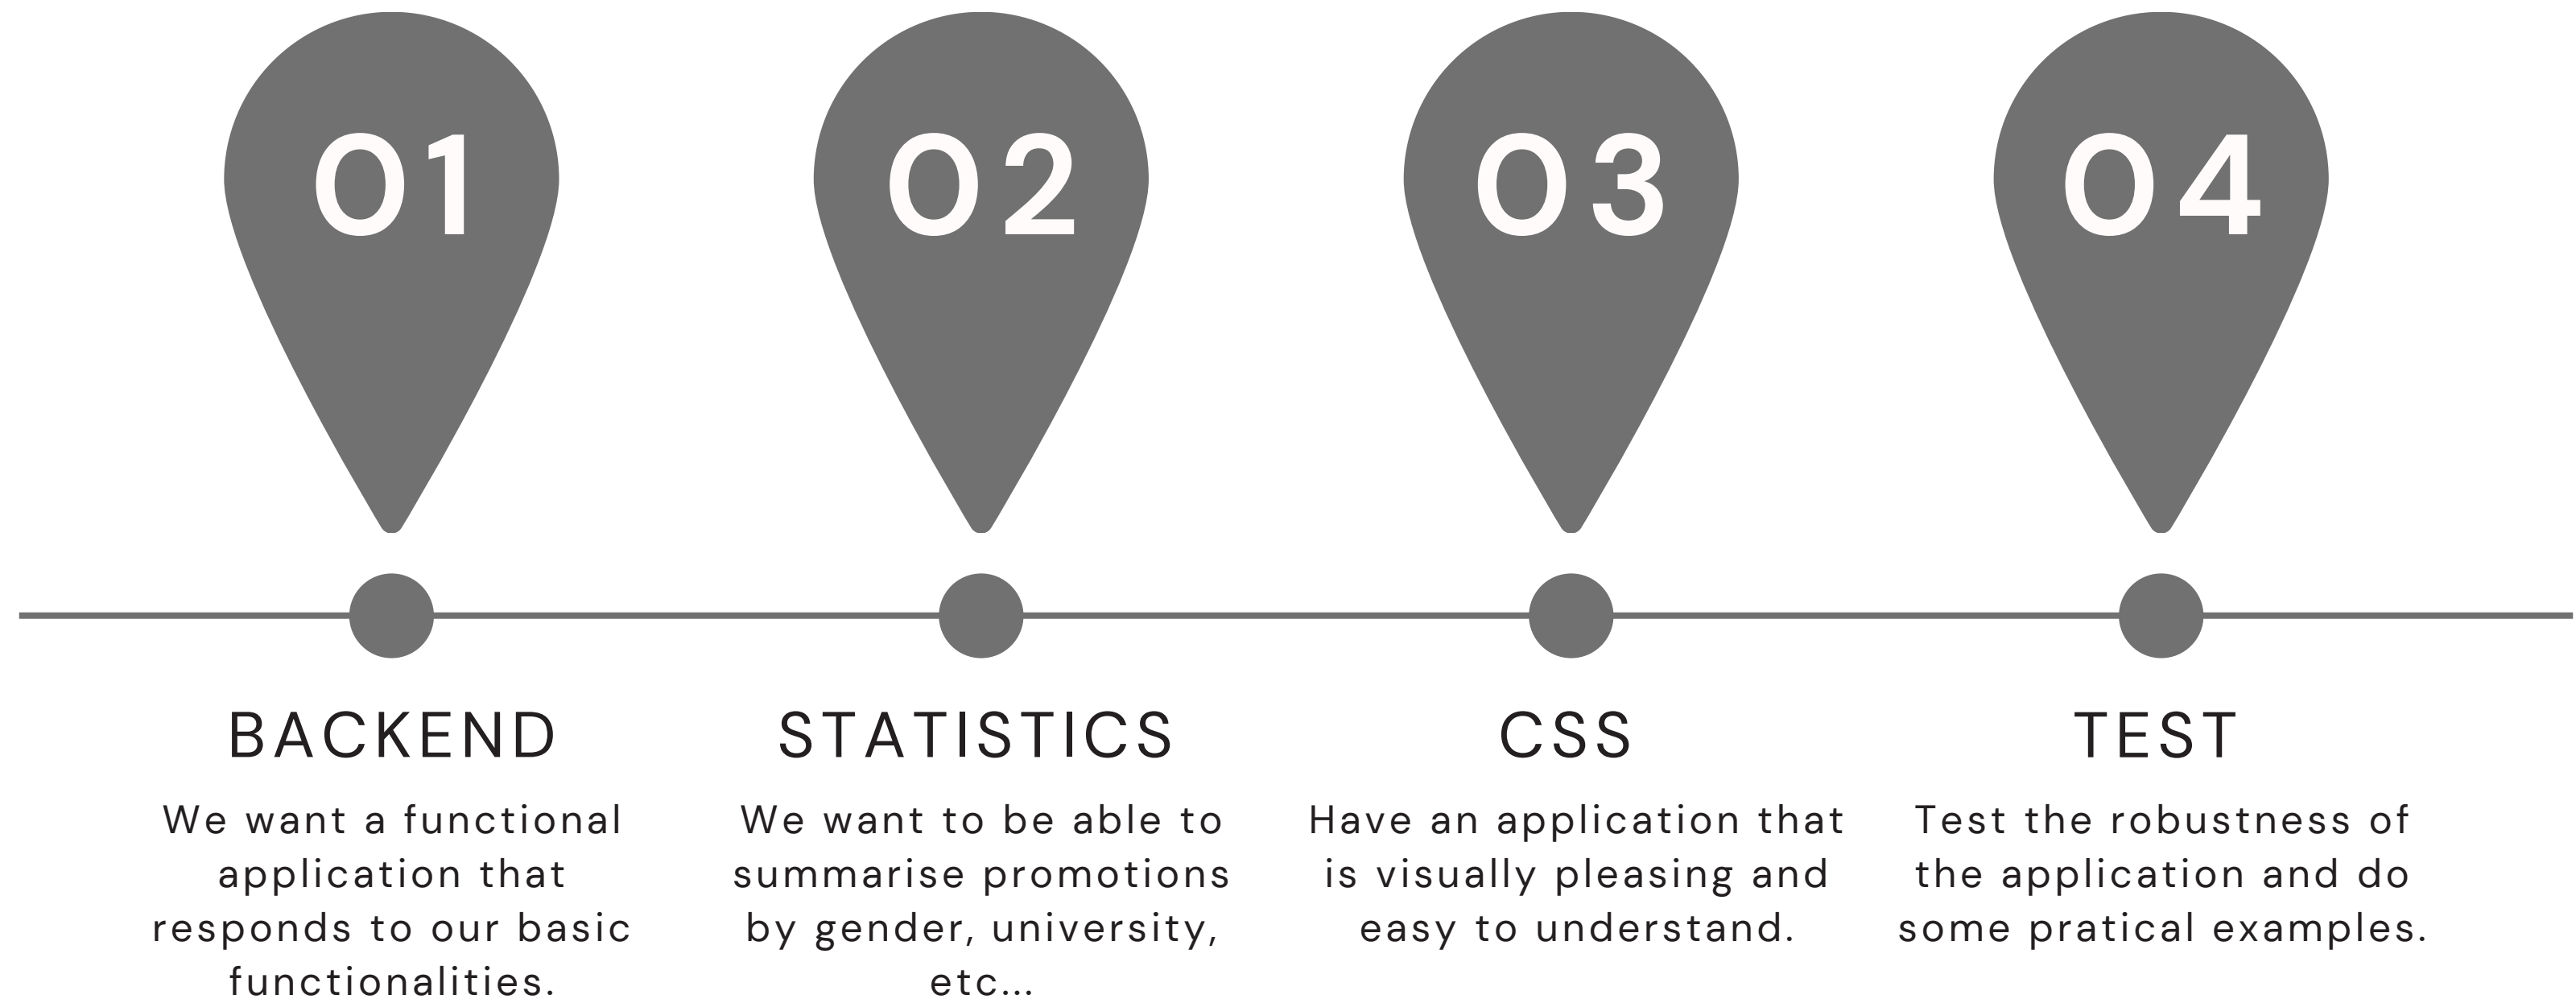

What we are working on

- Interface buttons and data file
- Statistics
- Aesthetic

Difficulty

- Paralellization of the work

FUTURE PLAN

SCENARIOS

Realistic scenario

We achieve every goal we stated : fully working and secure application, gender and geographical statistics.

Best case scenario

We achieve every goal and we also come up with new ideas and new features that we implement.

CONCLUSION

Thanks for listening !
